Nobel Prize in Physics 2025

Nobel Prize in Physics 2025: Celebrating a Breakthrough in Quantum Mechanics

We are thrilled to celebrate that the **2025 Nobel Prize in Physics** has been awarded to **John Clarke, Michel H. Devoret,** and **John M. Martinis** for "*the discovery of macroscopic quantum mechanical tunnelling and energy quantization in an electric circuit.*"

The work of this year's Nobel laureates builds upon the foundational quantum theories and discoveries of Niels Bohr, Max Planck, Paul Dirac and many others a century ago, and has profoundly influenced the world today.
