ABOUT ME

I am a civil engineer who graduated from the Middle East Technical University (METU) Civil Engineering Department, Ankara, Turkey. Moreover, I am a graduate of the Electronic Materials minor program in Metallurgical and Materials Engineering at METU. As a well-educated person, I want to work courageously and be a valuable person not only for myself but also for my work environment. I enjoy learning and doing business with passion. To be an engineer who wants to work hard in every job, my goal is to see the best possible way to sustain technology and combine technology with civil engineering division.

EDUCATIONAL BACKGROUND

Middle East Technical University, Ankara

Civil Engineering

September 2018 - July 2023

CGPA: 3.40/4.0 Ranking: 4/326

Middle East Technical University, Ankara

Metallurgical and Materials Engineering Electronic

Materials Minor

October 2020 - July 2023

CGPA: 3.36/4.0

Dr. Binnaz Ege – Dr. Ridvan Ege High School, Ankara

2014-2018
