

ANIL YILDIRIM

Civil Engineer

EDUCATION

Civil Engineering

Karadeniz Technical University, Trabzon

09/2017 – 09/2022

I graduated with honors from the Civil Engineering program (100% English) with a GPA of 3.08.

Senior Design Project: Sustainable architectural design and structural analysis of a multi-story reinforced concrete building in accordance with TBDY 2018.

Civil Engineering

Vilnius College of Technology and Design, Vilnius

02/2020 – 06/2020

Erasmus+ Programme.

Structural Engineering

Middle East Technical University, Ankara

02/2024 – 06/2026(not finished yet)

Master's Thesis: Seismic behavior of fiber reinforced concrete structural walls

WORK EXPERINCE

Construction Manager

Gözüm İnşaat Ticaret AŞ, Ankara

01/2023 – 09/2023

As a construction manager in residential projects, I was responsible for field supervision of both rough and fine construction works, subcontractor coordination, and quality control processes. Additionally, I actively performed technical office duties such as quantity surveying, progress payment preparation, material calculations, and project schedule tracking.

Technical Office Engineer

Ankara Büyükşehir Belediyesi PORTAŞ Proje İnşaat Taahhüt Asfalt Sanayi ve Ticaret A.Ş., Ankara

07/2024 – 01/2025

In the field of technical office engineering, I took an active role in quantity take-off, cost estimation, attachment preparation, progress payment documentation, price analysis, bid preparation, site follow-up, and reporting processes. I was also involved in coordinating with the construction site for managing employer-subcontractor progress payment relations, preparing shop drawings, and handling material approval processes.

Site Engineer

Ankara Büyükşehir Belediyesi PORTAŞ Proje İnşaat Taahhüt Asfalt Sanayi ve Ticaret A.Ş., Ankara

10/2023 – 06/2024, 02/2025 – 05/2025

In the field of structural (rough) works engineering, I have field and quality control experience in raft foundation, tunnel formwork, traditional formwork, bored pile construction, rebar-formwork-concrete works, and reinforced concrete shear wall applications. I worked in coordination with other disciplines in terms of site organization, material procurement, crew coordination, and compliance with MEP infrastructure requirements.

In the field of finishing works engineering, I have experience in site supervision, quality control, and execution management for plastering, painting, drywall, joinery, natural stone, and marble cladding works. I actively participated in architectural detail resolution, material selection, and interdisciplinary coordination including MEP systems.
