MATH 119 Calculus with Analytic Geometry

Course Number and Title: MATH 119 Calculus with Analytic Geometry
METU Credit & ECTS Credit: (4-2)5 & 7.5

Course Objectives: The sequence Math 119-120 is the Standard complete introduction to the concepts and methods of calculus. It is taken by all engineering students. The emphasis is on concepts, solving problems, theory and proofs. All sections are given a uniform midterm and a final exam. Students will develop their reading, writing and questioning skills in Mathematics.

Course Coordinator: Dilber KOÇAK

Important Dates:

Midterm I (March 24, 2024) 30%
Midterm II (May 11, 2024) 30%
Final Exam (TBA) 40%

There may be pop quizzes at the recitation hours. (BONUS)
(there will be no make-up for missed quizzes)

Suggested textbook:

Robert A. Adams, Christopher Essex
CALCULUS
A Complete Course Calculus. Eight (or any newer) Edition.

**MATH 119 Course Policy (2023-2)**

This document/announcement contains all the necessary information that you need to know about the structure of the MATH 119: Calculus with Analytic Geometry course. More information will be announced on the official website of the course and the ODTUCLASS page. All students enrolled in this course are supposed to follow these websites regularly.

MATH119 Coordination reserves the right to make necessary changes in this policy depending on the situations which are out of our control. So it is your responsibility to follow the announcements in the webpage of the course regularly.

### Lectures and Recitations

Lectures and Recitations are delivered as announced in Schedule of Lectures on the official website of the course. Keep in mind that this course is 6 (=4+2) hours per week. The first 2+2=4 hours are for lectures and the last 2 hours are for recitations. See "the schedule of lectures"- tab on the MATH119 web page when available.

### Class Attendance

You are expected to attend all lectures and recitations. However no attendance will be taken.
Make up for Exams and Assignments

You can have at most one make-up exam. In order to be able to take the make-up exam, you must present a reasonable excuse (such as a medical report or an academic leave).

**After the final exam**, there will be a form on ODTÜClass and via that form, you will apply the makeup exam instead of one missed exam and will send your reasonable excuse to wwwma119@metu.edu.tr.

Eligibility to take the Final Exam and NA Grade

If your two midterm scores (each one out of 100 points) add up to less than 20 points (out of 200 points in total), then you cannot take the Final Exam and will receive an NA grade from the course. If you did not attend the Final Exam and if you do not have the right to take make-up exam for Final, you will receive an NA grade.

Who gets NA grade?

(A) Before the final exam, students will be categorized in the following way:

1) M1 + M2 >= 20 2) M1 + M2 < 20, for which M1 is the Midterm 1 score out of 100, and M2 is the Midterm 2 score out of 100.

- Students in group 1 will be able to take the final exam.
- Students in group 2 will **NOT** be able to take the final exam. They will get an automatic NA grade.

Examples:

a) Student A attends to Midterm 1 and his score is 20. He/she does not take Midterm 2 being on leave for academic/medical reasons. Since M1+M2 = 20 >= 20, He/she is eligible for the final exam. If he/she submits relevant documents, it is also possible to take make-up exam which is given after the final. **No problem at all.**

b) Student B does not attend to Midterm 1 because of their illness. He/she attends to Midterm 2 and get 18 points. Since M1+M2 = 18 < 20, he/she won’t be able to take final exam and get NA grade. **It should be in mind that in this example, taking make-up for Midterm is not possible even if he/she has an appropriate official document (academic/medical report etc.).**

(B) According to the university’s rules and regulations governing undergraduate studies (Article 24), “...The grade NA is designated due to one of the conditions below. The grade NA is processed as FF in the calculation of the Grade Point Average.

1) Not fulfilling the attendance requirements for the theoretical and practical course hours as indicated in the course schedule.

2) Not qualifying to take the final exam due to failure in fulfilling the provisions regarding course practices.

3) Having taken none of the mid-term and final examinations.

...”
Note that each instructor/the coordination of the course reserves the right to determine whether the attendance requirements indicated in the above policy (B-1) applies to the students of their section or not.

Information for Students with Disabilities
Students who experience difficulties due to their disabilities and wish to obtain academic adjustments and/or auxiliary aids must contact ODTU Disability Support Office and/or course instructor and the advisor of students with disabilities at academic departments (for the list: http://engelsiz.metu.edu.tr/en/advisor-students-disabilities) as soon as possible. For detailed information, please visit the website of Disability Support Office: https://engelsiz.metu.edu.tr/en/

Academic Honesty
The METU Honour Code is as follows: "Every member of METU community adopts the following honour code as one of the core principles of academic life and strives to develop an academic environment where continuous adherence to this code is promoted. The members of the METU community are reliable, responsible and honourable people who embrace only the success and recognition they deserve, and act with integrity in their use, evaluation and presentation of facts, data and documents."
