

MATH 120 Calculus of Functions of Several Variables

Course Number and Title: MATH 120 Calculus of Functions of Several Variables

METU Credit & ECTS Credit: (4-2)5 & 7.5

Catalogue Description: Sequences and infinite series. Power series. Taylor series. Vectors and analytic geometry in 3-space. Functions of several variables: limits, continuity, partial derivatives. Chain rule. Directional derivatives. Tangent planes and linear approximations. Extreme values. Lagrange multipliers. Double integrals. Double integrals in polar coordinates. General change of variables in double integrals. Surface parametrization and surface area in double integrals. Triple integrals in Cartesian, cylindrical and spherical coordinates. Parametrization of space curves. Line integrals. Path independence. Green's theorem in the plane.

Course Objectives: The sequence Math 119-120 is the Standard complete introduction to the concepts and methods of calculus. It is taken by all engineering students. The emphasis is on concepts, solving problems, theory and proofs. All sections are given a uniform midterm and a final exam. Students will develop their reading, writing and questioning skills in Mathematics.

Prerequisites: Math 119

Course Coordinator: Prof. İbrahim Ünal

Midterm I (March 24, 2024, at 09:30)	30%
Midterm II (May 11, 2024, at 09:30)	30%
Final Exam (June 06, 2024, at 09:30)	40%
Quiz (during recitations)	5%

(there will be no make-up for missed quizzes)

For more details about exams and grading, see the announcements on the Course Home page.

Suggested textbook:

Robert A. Adams, Christopher Essex
CALCULUS
A Complete Course Calculus. Eight (or any newer) Edition.

Week	Dates	Syllabus (Math 120) 2023-2	Suggested Problem List
1	February 19-23	Ch. 9: Sequences, Series, and Power Series 9.1 Sequences and Convergence	Worksheet on Sequences and Series 9.1: 6,8,10,17,18,19,24,26,29,31,35
2	February 26-March 01	9.2 Infinite Series 9.3 Convergence Tests for Positive Series	9.2: 4,6,8,10,12,14,26,27,28,29,30,31 9.3: 4,6,12,16,18,20,24,26,38,42
3	March 04-08	9.4 Absolute and Conditional Convergence 9.5 Power Series	9.4: 2,4,8,10,16,20,24,27 9.5: 4,8,10,13,14,17,18,22,26,28,30
4	March 11-15	9.6 Taylor and Maclaurin Series 9.7 Applications of Taylor and Maclaurin Series	9.6: 6,8,12,18,22,26,34,35,40 9.7: 6,7,12,16,18,24
5	March 18-22 Midterm I (March 24, 2024, at 09:30)	Ch. 10: Vectors and Coordinate Geometry in 3-Space 10.1 Analytic Geometry in Three Dimensions 10.2 Vectors 10.3 The Cross Product in 3-Space 10.4 Planes and Lines 10.5 Quadric Surfaces	10.1: 6,19,22,27,32,36,40 10.2: 4,13,16,18,22,26,31 10.3: 3,5,14,15,17,20,23 10.4: 3,6,9,18,23,26,28,29 10.5: 3,5,8,10,12,15,17,20,21
6	March 25-29	Ch. 12: Partial Differentiation 12.1 Functions of Several Variables 12.2 Limits and Continuity	12.1: 4,5,8,12,13,14,20,24 12.2: 2,6,8,10,12,14,18
7	April 01-05	12.3 Partial Derivatives 12.4 Higher-Order Derivatives 12.5 The Chain Rule 12.6 Linear Approximations	12.3: 4,5,6,11,12,16,17,21,24,28,31,36,39 12.4: 4,10,16 12.5: 4,8,16,18,29,30 12.6: 4,6,10,16
8	April 08-12	NO CLASSES April 10 – 12 Religious holiday (Holiday eve Tuesday)	
9	April 15-19	12.7 Gradients and Directional Derivatives 12.8 Implicit Functions (“Systems of Equations” is <i>not</i> included) Ch. 13: Applications of Partial Derivatives 13.1 Extreme Values	12.7: 4,8,10,17,18,19,22,26,36 12.8: 2,5,6,11 13.1: 1, 3, 6, 7, 9, 11, 17, 19, 24, 26
10	April 22-26	13.2 Extreme Values of Functions Defined on Restricted Domains 13.3 Lagrange Multipliers Ch. 14: Multiple Integration 14.1 Double Integrals April 23 National Sovereignty and Children's Day, Tuesday	13.2: 3, 5, 7, 8, 9, 11, 17 13.3: 1, 3, 5, 7, 9, 11, 19, 21, 22 14.1: 5,13,15,18,19
11	April 29-May 03	14.2 Iteration of Double Integrals in Cartesian Coordinates 14.4 Double Integrals in Polar Coordinates 14.5 Triple Integrals May 1 – Labor and Solidarity Day, Wednesday	14.2: 1-27 odd 14.4: 1-25 odd 14.5: 2,4,6,7,9,10,14,15
12	May 06-10 Midterm II (May 11, 2024, at 09:30)	14.6 Change of Variables in Triple Integrals Ch. 11: Vector Functions and Curves 11.1 Vector Functions of One Variable 11.3 Curves and Parametrizations Ch. 15: Vector Fields 15.1 Vector and Scalar Fields	14.6: 2,3,4,6,10,12,16 11.1: 8,10,16,18 11.3: 1,2,3,4,6,8,17,18,24 15.1: 2,3,6
13	May 13-17	16.1 Gradient, Divergence, and Curl 15.2 Conservative Fields 15.3 Line Integrals May 19 - National Holiday (Commemoration of Atatürk & Youth and Sports Festival, Sunday)	16.1: 3,4 15.2: 2,6,9 15.3: 2,6,8,13,14
14	May 20-24	15.3 Line Integrals 15.4 Line Integrals of Vector Fields Ch. 16: Vector Calculus 16.3 Green's Theorem in the Plane	15.3: 2,6,8,13,14 15.4: 4,6,8,9,13,22 16.3: 1, 2, 3, 4, 5, 6, 7, 9

MATH 120 Course Policy (2023-2)

This document/announcement contains all the necessary information that you need to know about the structure of the *MATH 120: Calculus of Functions of Several Variables* course. More information will be announced on the official website of the course and the ODTUCLASS page. All students enrolled in this course are supposed to follow these websites regularly.

MATH 120 Coordination reserves the right to make necessary changes in this policy depending on the situations which are out of our control. So it is your responsibility to follow the announcements in the webpage of the course regularly.

Lectures and Recitations

Lectures and Recitations are delivered as announced in **Schedule of Lectures** on the official website of the course. Keep in mind that this course is **6 (=4+2) hours per week**.

The first 2+2=4 hours are for **lectures** and the last 2 hours are for **recitations**. See "the schedule of lectures"- tab on the MATH120 web page when available.

Class Attendance

You are **expected** to attend all lectures and recitations. However no attendance will be taken. Also there will be frequent pop quizzes in recitation hours.

Make up for Exams and Assignments

You can have at most one make-up exam. In order to be able to take the make-up exam, you must present a reasonable excuse (such as a medical report or an academic leave).

After the final exam, there will be a form on ODTÜClass and via that form, you will apply the make-up exam instead of one missed exam and will send your reasonable excuse to wwwma120@metu.edu.tr.

Eligibility to take the Final Exam and NA Grade

If your two midterm scores (each one out of 100 points) add up to less than 20 points (out of 200 points in total), then you cannot take the Final Exam and will receive an NA grade from the course. If you did not attend the Final Exam and if you do not have the right to take make-up exam for Final, you will receive an NA grade.

Who gets NA grade?

(A) Before the final exam, students will be categorized in the following way:

1) $M1 + M2 \geq 20$

2) $M1 + M2 < 20$,

for which M1 is the Midterm 1 score out of 100, and M2 is the Midterm 2 score out of 100.

- Students in group 1 will be able to take the final exam.
- Students in group 2 will **NOT** be able to take the final exam. They will get an automatic NA grade.

Examples:

a) Student A attends to Midterm 1 and his score is 20. He/she does not take Midterm 2 being on leave for academic/medical reasons. Since $M1+M2 = 20 \geq 20$, He/she is eligible for the final exam. If he/she submits relevant documents, it is also possible to take make-up exam which is given after the final. *No problem at all.*

b) Student B does not attend to Midterm 1 because of their illness. He/she attends to Midterm 2 and get 18 points. Since $M1+M2 = 18 < 20$, he/she won't be able to take final exam and get NA grade. **It should be in mind that in this example, taking make-up for Midterm is not possible even if he/she has an appropriate official document (academic/medical report etc.).**

(B) According to the university's rules and regulations governing undergraduate studies (Article 24),

"...The grade NA is designated due to one of the conditions below. The grade NA is processed as FF in the calculation of the Grade Point Average.

1) Not fulfilling the attendance requirements for the theoretical and practical course hours as indicated in the course schedule.

2) Not qualifying to take the final exam due to failure in fulfilling the provisions regarding course practices.

3) Having taken none of the mid-term and final examinations.

..."

Note that each instructor/the coordination of the course reserves the right to determine whether the attendance requirements indicated in the above policy (B-1) applies to the students of their section or not.

Information for Students with Disabilities

Students who experience difficulties due to their disabilities and wish to obtain academic adjustments and/or auxiliary aids must contact ODTU Disability Support Office and/or course instructor and the advisor of students with disabilities at academic departments (for the list:

<http://engelsiz.metu.edu.tr/en/advisor-students-disabilities>) as soon as possible. For detailed information, please visit the website of Disability Support Office: <https://engelsiz.metu.edu.tr/en/>

Academic Honesty

The METU Honour Code is as follows: "Every member of METU community adopts the following honour code as one of the core principles of academic life and strives to develop an academic environment where continuous adherence to this code is promoted. The members of the METU community are reliable, responsible and honourable people who embrace only the success and recognition they deserve, and act with integrity in their use, evaluation and presentation of facts, data and documents."
